DD/S 71-4823

22 DEC 1971

The Honorable Joel T. Broyhill
House of Representatives
Washington, D. C. 20515

My dear Mr. Broyhill:

In the Director's absence I should like to respond to your letter of 6 December 1971 on behalf of the Langley Soccer Club.

A tract of land which adjoins the site of our Headquarters building here in Langley and which was formerly assigned to the Federal Highway Administration has recently been acquired by the National Park Service and will become an extension of the Turkey Run park and picnic area. It is our understanding that certain parts of this property will be made available for recreational purposes. I believe it is in the newly acquired Turkey Run area where consideration is being given to the establishment of the soccer field referred to in your letter.

With regard to the fencing, we have been advised that the entire area, including the fencing, has been transferred to the National Park Service. Mr. David Richie, Superintendent, George Washington Memorial Parkway, has informed us that the existing recreation area adjacent to Route 193 is currently available to the public and that the fencing will continue in place to protect the area and its users.

However, I am told that the new area north of the existing facilities where the soccer field will be located cannot be developed without some additional filling. Also, it was agreed by the National Park Service, Federal Highway Administration, General Services Administration and ourselves that before the new area is developed for public use Government areas adjacent to Turkey Run park should be fenced. Before the fencing can be erected, however, the necessary changes in land assignments must be completed. This action is in the hands of the General Services Administration.

We are cooperating with the National Park Service in this development, and I have asked our people to expedite matters within the control of this Agency to the fullest extent possible.

Sincerely,

L. K. White
